

About Us

Who are we?

Metals New Zealand (Metals NZ) is an incorporated society serving the needs of New Zealand's metals related industry. Launched in 2011, it consists of Organisation Members made up from metals related industry associations, Ordinary Corporate Members made up from key stakeholder companies and Affiliate Members who are generally the members of the Organisation Members. Its Executive consists largely of leaders of New Zealand's major organisations operating in the metals based sectors. The Executive are nominated by Metals NZ members because they are recognised as 'captains of the industry'. They offer their time to contribute to sector group strategic thinking and believe as leaders they have a responsibility to the industry and need to speak out on its behalf and also that of the wider community.

The Secretariat for Metals NZ is provided through the NZ Heavy Engineering Research Association (HERA) with the HERA Director Dr. Wolfgang Scholz being the current Secretary.

Our Vision

Metals NZ is a pan-industry sector organisation whose vision is to position the industry to be a prosperous, vibrant, sustainable and socially responsible contributor to the New Zealand economy.

Our Mission

Metals NZ will achieve this vision through advocacy and strategic leadership on issues that affect the entire metals industry.

Our Approach

The Metals NZ Executive believes that through the co-ordinated effort of the many metals industry sector groups the overall metals industry performance can be improved. Based on objective research, open dialogue and understanding of the interests of each sub-sectors, it is believed that sound industry policies can be developed and promoted. Joint activities such as the Metals Industry Conference, the Sustainable Steel Council and shared administration are delivering significant benefits for members and the industry as a whole.

Metals NZ will limit its activities to matters of specific relevance to the metals industry. It will co-operate with other industry and business development organisations on common issues.

Benefits of Membership

Individual company specific benefits:

- Raising of industry issues
- Communication opportunity to all metals industry members
- Use of Metals NZ logo in your company stationery

Metals industry sector-wide benefits:

- Promotion of industry capabilities
- Development of business opportunities
- Industry advocacy
- Networking opportunities such as at metals industry conferences
